

Encouraging all woodworkers in self-expression, craftsmanship and knowledge

Colorado Woodworkers Guild

January 2020

President's Corner

Starting off a new year is always exciting, and for me, in particular, taking over the seat of Guild president makes it all the more so

Plans in store for the upcoming year include:

- Finding woodworking celebrities to give us some sort of in-depth presentation, or perhaps a class. We are wide open for suggestions please send them to programs@coloradowoodworkersguild.org
- Coordinating with our new Publicity chair, Bill Bixby, to recruit new members. With this in mind, we have decided to move the management of the our social media accounts into the purview of the Publicity Chair
- Finding new ways to conduct our meetings. Presentations can be valuable, but it is quite difficult to find topics that will appeal to everyone. To that end, we would like meetings with a number of workstation covering various topics, and many which might involve hands-on. We have had such meetings in the past and they have been very well received.

We still need a Secretary and hope that among our approximately 200 members someone will step up and volunteer to take notes at our occasional board meetings and compile them into a formatted report to be distributed to Board Members. We really need the support of volunteer members if we are to continue to succeed as The Guild. Please step up!

Please share any suggestions for improving the Guild's offerings to its members to president@colowood.com.

I am looking forward to the next year with the Guild and hope that we can continue to improve the things we provide to our members.

Wilbur Goltermann President

Upcoming meetings

Rockler Woodworking and Hardware, 2553 South Colorado Boulevard January 21, 2020 6:30 – Rockler Woodworking and Hardware 2553 South Colorado Boulevard. We will have multiple workbenches set up with several demos taking place.

1. Bill Knoll will demonstrate his approach to making , storing and applying the 1-2-3 finish. I've heard about the 1-2-3 finish many times in the past but never had an opportunity to use it. Should be interesting.
2. Kevin Lloyd will demonstrate his approach to making plane totes. If you've ever restored an old plane, you have probably had to deal with a damaged, broken or missing tote.
3. Wilbur Goltermann will give two demos. First a short demo of Fusion 306, a CAD package used by many people who make things. Second a demo of cutting something with his Shaper Origin CNC. This is a CNC machine disguised as a hand held router. Go here <https://www.shapertools.com/en-us/> if you're interested.

Most of the feedback I've gotten on these “multi-demo” meetings has been quite positive. If you have a skill you'd like to demonstrate, please let me know and we'll set it up for a future meeting. Contact Cary via programs@coloradowoodworkersguild.org

Audio / Visual

Bill Knoll, video committee chair, is looking for two guild members, for helping with video recording at the monthly meetings. We schedule video recording assignments on a quarterly basis and with 3 or 4 members on the committee the obligation is only for one meeting a quarter. Each month the recording is posted on the Guild website. Even if you don't have video recording experience this is an easy way to get involved and create a record of the meeting that can be shared with members who were not able to attend or just want to review technical parts of the guest speaker presentation. Bill can be contacted at BCKNOLL48@COMCAST.NET.

Bill Knoll

Library

The library had a donation of quite a few new books and DVDs. They will be available soon, so check out the catalog online.

Jim Barry

Mick Pearl

Long time guild member Mick Pearl passed away in November from lung cancer. Mick was part of the “toy brigade” and always willing to do whatever was needed to get them done.

Membership

If you haven't renewed your membership for 2020:

- Go to coloradowoodworkersguild.org
- Click on "Public Pages"
- Click on "pay for membership" on the right side
- Follow the directions on this page
